Animals find shelter thanks to 3 Connecticut Companies

Farmington, CT, September 6, 2011 Walker Systems Support, is a CT based IT support company and social enterprise. This is the final chapter of a tale that began in March of this year when Walker teamed up with three other CT companies to come to the aid of the Meriden Humane Society.

Walker's social enterprise business model and their community outreach initiatives are very much a part of their culture. Through a coordinated effort by Walker and ConnStep, Shelter Logic donated 60 shelters to the Meriden Humane Society who had lost their outside dog structures during this past winter's massive ice storms. Another company L.R. Hawthorne Trucking Co came to the rescue and picked up and delivered the shelters to the Meriden Humane Society where Walker coordinated the installation of 9 of the shelters just in time for the Meriden Humane Society's 118th Birthday Celebration.

Walker's team of animal lovers included; Todd Columb, Dave Fluckiger, Diana Sutcliffe, Quinn Kizis, Carl Fazzina, Steve Burch and Melanie Jordan, who heads Walker's community outreach for animals. "We had a non-stop, grueling but fun day out in the heat!" stated Melanie who spearheaded this project. "We built 9 kennels which were proudly displayed at the 118th birthday celebration of the Society held on Saturday August 13th. It was truly awesome to see so many rescue organizations in attendance at the birthday bash; they work so hard to find these animals their forever homes." Walker is proud to have been part of this project to make a difference in the lives of many animals.

About Walker Systems Support
